Reliable, Affordable, Community Owned

College Station Watering Schedule

In an effort to conserve limited drinking water supplies, the City of College Station has adopted a watering schedule based on the last digit in a customer's address. The schedule is broken into three groups: commercial/multi-family properties, residential-**even** numbered addresses, and residential-**odd** numbered addresses.

Customer Class	Watering Day(s)
Commercial/Multi-family	Monday and/or Friday
Residential- Even Numbered	Tuesday and/or Saturday
Residential- Odd Numbered	Thursday and/or Sunday

How much water are you using? Follow these simple steps to find out:

- Step 1 Set 3 – 5 shallow flat-bottom cans around the yard.
- Step 2 Run sprinklers / irrigation zone for 10 - 15 minutes
- Step 3 Measure amount of water collected in cans and divide by number of cans.
- Step 4 Multiply the answer from step 3 by 6 if you ran sprinklers for 10 minutes, or 4 if you ran sprinklers for 15 minutes.
- Step 5 The answer from step 4 is at's your application rate in inches per hour.

Weekly watering amounts are available from the TAMU Irrigation Technology Center!

Go to <http://texaset.tamu.edu/date.php?stn=25&spread=7> and click on 'Home Watering'

Tips to avoid water waste:

- Avoid landscape irrigation between 10:00 a.m. and 6:00 p.m.
- Maintain landscape irrigation systems in good working condition.
- Install a rain shut-off sensor on your automatic landscape irrigation system.
